

FIELD OF USE

Insulating stick for electrical networks and electrical installations.
In compliance with IEC 61235.
For use in dry and wet conditions.
Telescopic stick for voltage detector and/or earthing systems.

COMPOSITION

2 elements made of epoxy resin / glass fiber yellow tube

- Lower element : hollow tube, outer diameter 41 mm.
- Upper element : polyurethan foam-filled tube, outer diameter 32 mm.

FEATURES

- Lockable by button
- Max. voltage in unfolded position 90 kV
- Longueur hors tout repliée : 2.0 m
- Folded length : 1.2 m.
- Handguard
- Weight : 1.5 kg.

PART-NUMBERING

CE-4-21-*

: fitting type

- **K** : universal fitting.
- **E** : bayonet fitting.
- **C** : hexagonal (female), 12 mm A/F
